

## Sample Itinerary

**Arrival at 10.00am**

**Welcome & Introduction, Kit Issue**

### Morning Activity Session

#### **Tug of War**

A great challenge to kick-off the day requiring strength, stamina and teamwork.

#### **Team Ski**

Standing astride one large set of skis, the team must work together to negotiate their way across a glacier, looking out for the crevasse along the way. Not as easy as it sounds!

#### **Human Sheep Herding**

Each team will elect a shepherd who must guide the blindfolded team members dressed as sheep safely into a pen. A fun team building event which will test the team's communication skills.

#### **The Land Raft**

Each team must construct a Land Raft which will transport all your guests from Point A to point B, only using Egyptian technology.

#### **Ready Steady Cook**

A race to find stove components located in the surrounding land using map and compass. First team to assemble the camping stove and boil an egg wins.

**LUNCH**

## **Afternoon Activity Session**

### **Leap of Faith**

Jump out of your comfort zone and take a 'leap of faith' to reach the trapeze bar in front of you. Not as easy as it sounds whilst balancing on a wobbly pole and 14m off the ground.

### **High all Aboard**

A test of team work and trust, the objective is to get 4 people to climb the 14m pole to stand on a small platform. Sounds easy? Now try holding hands and lean back!

### **Crate Stack Challenge**

Team members must work together to build a tower of crates as high as they can. The higher the tower, the more unstable it becomes and if it topples over so does the team. A fun way to test communication and teamwork skills!
