

**LURGABOY ADVENTURE**

*Inspiration without limitation*

## corporate development

motivation | leadership | teamwork

At Lurgaboy we are committed to running highly effective corporate development programmes and feel the unique blend of activities on offer, dedicated staff and powerfully evocative setting enable us to deliver – every time. Courses will be designed to meet the specific needs of each client and can include a combination of the elements outlined below.

### **Corporate Activity Days**

Just as golf outings, visits to the theatre and a day at the races can provide opportunities for team building and group bonding, so too can the great outdoors! The group may choose one or more of the following activities, which can be mixed and matched to provide a challenging and enjoyable day – or two!

Rock Climbing | Canoeing | Raft Building | Orienteering | Ropes Course | Guided Mountain Walk

### **Team Building Programmes**

More and more businesses are beginning to understand the importance of effective team work in achieving their objectives and giving them the edge over the competition.

Lurgaboy offers specially customised programmes - which we'll devise quickly after a short consultation with the prospective client - to help develop a team ethos that will ensure the realisation of common goals in the most effective way possible. Through the tried and tested sequence of planning – execution – review, the team and individuals within it will have the chance to examine their performance and plan for greater achievement in the future.

For further information please telephone, email or consult our website.
