

LURGABOY ADVENTURE

Inspiration without limitation

self catering accommodation

relax | experience | remember

Lurgaboy Cottages are ideal for a truly rural experience in this beautiful part of Northern Ireland, whether you are actively interested in Irish country life, or simply wanting to relax by a cosy fire away from the stresses of the city. The cottages are tucked away in the countryside against a backdrop of rolling hills, green valleys and wide open spaces to offer respite from the pressures of every day life. According to local history, they are over 200 years old and much care has been taken to restore them back to their former glory.

Facilities

You can choose between our 1-bedroom and 2-bedroom cottages, each comprising traditional kitchen with modern appliances, cosy living room with open log fire, and all bedrooms ensuite with electric shower/bath. Both lounge and kitchen have exposed beams to give that welcoming feel. The smaller of the cottages sleeps a maximum of 4 people and the larger a maximum of 6.

Key Features

Lurgaboy Cottages are finished to an excellent level of comfort, and we strive to make your stay a memorable experience by providing that 'little bit extra'. The cottages are surrounded by panoramic views of the Mourne Mountains and the rolling hills of South Armagh. Much time and effort has been invested into developing our own farmland, (which conveniently surrounds the cottage), by planting thousands of trees and the construction of large ponds, which have just recently been restocked with rainbow trout. The cottages are located in a quiet rural area 6 miles from the Cathedral City of Armagh.

Whilst staying at the cottages you can participate in the range of activities offered by Lurgaboy Adventure including archery, orienteering, kayaking, canoeing, mountain biking, climbing and guided walks in the beautiful Mourne Mountains. Other nearby attractions include the spectacular Gosford Forest Park (½ mile) and the many old historic buildings in Armagh City. Nearest village 1 ½ miles. Restaurants, entertainment and shopping are available in the many neighbouring towns and villages.
